

Reliable solutions

ZAXIS135/150/155W

WHEELED EXCAVATOR

Model code : ZX135W-7

Engine rated power : 105 kW (ISO 14396) /
100 kW (ISO 9249)

Operating weight : 14 500 – 15 900 kg
Bucket ISO heaped : 0.19 – 0.66 m³

Model code : ZX150W-7

Engine rated power : 105 kW (ISO 14396) /
100 kW (ISO 9249)

Operating weight : 15 300 – 17 200 kg
Bucket ISO heaped : 0.19 – 0.66 m³

Model code : ZX155W-7

Engine rated power : 105 kW (ISO 14396) /
100 kW (ISO 9249)

Operating weight : 16 200 – 17 600 kg
Bucket ISO heaped : 0.19 – 0.66 m³

You're in control

You're at the heart of Hitachi's design for its latest range of excavators. To continuously improve on previous generation machines we've focused on enhancing your experience in the cab as an operator.

We've considered the challenges you face as the owner of a successful business. And we've zoomed in on the ways in which we can support you over the life cycle of your machine.

By putting you at the heart of the Zaxis-7 range, we invite you to take control – over your workspace and your fleet. And by working in partnership, we will help you to create your vision.

Inside

In control of your business

8. Improve your profit

In control of your comfort

In control of your environment

12. Increase your safety

In control of your assets

14. Boost your uptime

In control of your fleet

16. Manage your machine

In control of your uptime

18. Protect your investment

In control of your performance

20. Get more from your machine

Complete control

The expanded cab interior provides a more comfortable working environment.

The new Zaxis-7 range of wheeled excavators puts you firmly in control, so you can feel assured of your machine's performance, and supported by the technological expertise and services that Hitachi provides.

Sensors monitor oil continuously and contribute to preventative maintenance, helping to reduce downtime.

ConSite Pocket app allows you to manage and monitor your fleet remotely.

Options such as Hitachi ground engaging tools enable you to enhance the performance of your excavator.

Integrated console and seat suspension gives a greater sense of control, and helps to reduce fatigue.

Visibility of the job site is excellent thanks to the Aerial Angle camera system and new LCD monitor.

The short swing radius of the ZX135W-7 is ideal for working on narrow job sites, enhancing versatility.

The ECO gauge on the monitor indicates how to lower fuel consumption and reduce costs.

Improved access to components ensures maintenance is quick and easy.

The new HIOS-V hydraulic system reduces fuel consumption and increases front speed to enhance productivity.

Control zone

Enhanced comfort and safety features are at your fingertips in the refined cab of Zaxis-7 excavators, giving you the power to perform productively, with ease and reduced fatigue.

- ① **Increased sweeping area of parallel link wiper** enhances visibility in difficult working conditions.
- ② **Air conditioning and audio** are easily controlled via the monitor.
- ③ **Low-reflective colour 8" LCD monitor** is easy to view and navigate.
- ④ **USB socket and smartphone holder** helps you stay connected.
- ⑤ **Drinks holder** is easy to detach for cleaning.
- ⑥ **Additional joystick controls** for effortless operation.
- ⑦ **Ergonomic design** gives you convenient access to controls.
- ⑧ **Bluetooth®** for hands-free calls and **DAB+** radio for music while you work.
- ⑨ **Multifunctional control panel** makes operation easier.
- ⑩ **Improved sound isolation** makes this one of the quietest cabs in the market.
- ⑪ **User-friendly storage space** keeps your workspace tidy and clutter-free.
- ⑫ **Coat hooks** take care of your personal belongings.
- ⑬ **New blade and outrigger lever** provides fingertip control and is within easy reach.
- ⑭ **Integrated console and seat suspension** gives a greater sense of control and helps to reduce fatigue.
- ⑮ **One-touch adjustment lever for console** so you can work comfortably in the optimum position.
- ⑯ **Increased legroom** creates a more spacious cab.
- ⑰ **Front visibility** is improved by the slim steering column (with wider adjustment angle) and smaller steering wheel.
- ⑱ **Auto working brake** helps to reduce fatigue.

Operation is easy with ergonomically designed controls and switches.

Bluetooth® connection for hands-free calls while you work.

In control of your business

Improve your profit

The success of your business depends on the reliability and efficiency of your construction machinery. With Hitachi's latest Zaxis-7 wheeled excavators, you can count on the highest quality, the ultimate in operating comfort and reduced running costs – all of which will have a positive impact on your bottom line.

You can look forward to increasing your profits thanks to the impressive fuel economy of these Stage-V compliant machines. The stunning new-look ZX150W-7 and ZX155W-7 deliver 5% less fuel consumption than the previous models. The newly developed ZX135W-7 has the same engine as the larger ZX155W-7 and a compact swing radius for confined spaces.

Hitachi's industry-leading hydraulic system, HIOS V, increases front speed and reduces fuel consumption. Your operators can also control fuel efficiency – and reduce costs – by using the all-new ECO gauge. This is clearly visible on the multifunctional colour LCD eight-inch monitor.

In addition, you can boost your profits by working on a wider range of projects thanks to the excellent versatility of Zaxis-7 excavators. Different attachments are quickly changed using the enhanced attachment support system on the monitor.

With a simple adjustment to suit your operator's preference and job site requirements, you can fine-tune your machine for optimum productivity – while still reducing fuel consumption.

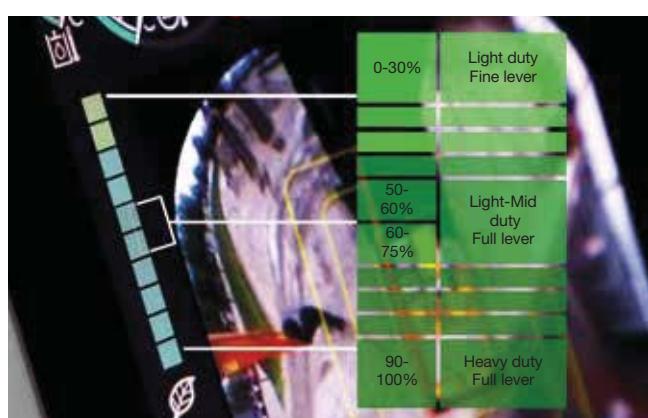

The ZX135W-7 turns within a radius of 3.5 metres (1,740mm to the rear and 1,750mm to the front).

A fuel saving of up to 5% is achieved with the HIOS V hydraulic system (ZX150W-7 and ZX155W-7).

HIOS V hydraulic system increases front speed and reduces fuel consumption.

The ECO gauge helps to deliver better fuel consumption.

The attachment support system enables increased versatility.

You're in control with a spacious, tidy and enjoyable working environment.

The cab has ample space for your belongings.

The LCD monitor is easy to view with hi-res anti-glare screen.

In control of your comfort

Feel the difference

Hitachi's redesigned, state-of-the-art Zaxis-7 excavator cab gives you the perfect working environment. The ultra-spacious ZX135W-7, ZX150W-7 and ZX155W-7 offer you an industry-leading, first-class cab with the ultimate in comfort and quality, as well as low noise levels and less vibration than the previous generation.

Feel the difference with the synchronised motion of the seat and console, designed to ensure you feel less tired at the end of the working day. Stretch out in the most spacious Hitachi cab yet, with improved pedal layout, ample head clearance and legroom. And sit comfortably thanks to the easily adjustable console height with three positions to choose from, and the optional ride control system that suppresses vibrations from the front attachment.

Easy operation comes from the new ergonomic design of the console and switches, convenient access to controls, and features such as the auto working brake, cruise control and automatic transmission. You can navigate quickly through the menu on the 8" LCD monitor with the multifunctional controller. The hi-res anti-glare screen is also easier to view, and the refreshed layout offers a clear display and desirable functionality – such as air conditioning, DAB+ radio and Bluetooth®.

With more storage for your personal belongings, such as your coat, smartphone and drink, you'll feel instantly relaxed and ready for your shift. Added practical functions to the joysticks, such as engine idle and audio mute controls, will make your working day effortless and enjoyable.

Ergonomic multifunctional control panel provides easy access.

In control of your environment

Increase your safety

Your ability to work safely is vital, not only for your own wellbeing, but also for the successful completion of any project. To protect yourself and your machine from potential hazards, the new Hitachi Zaxis-7 excavators give you a superior view of your surroundings, so you can see the job site from all angles.

The visibility you enjoy from the cab includes an exceptional 270-degree bird's-eye view with the Aerial Angle camera system. You can choose from six image options to view the machine's immediate environment, which enables you to control your own safety – as well as that of those around you. Visibility through the cab's front window is also improved by the slim steering column (with wider adjustment angle) and smaller steering wheel.

To help you to work more confidently and efficiently, even in the most challenging of conditions, Zaxis-7 excavators are fitted with some impressive new features. From the LED work lights and the windscreens wiper with an increased sweeping area, wider mirrors (heated available as an option), to the large reflective strips on the counterweight and optional roller sunshades, you'll have the visibility you need when it matters most.

Attention to detail is also fundamental to a safe working environment – and the repositioning of the pilot shutoff lever is a perfect example. It is now within easy reach to prevent any unintentional actions. The parking brake also works with the pilot shutoff lever for added safety and convenience.

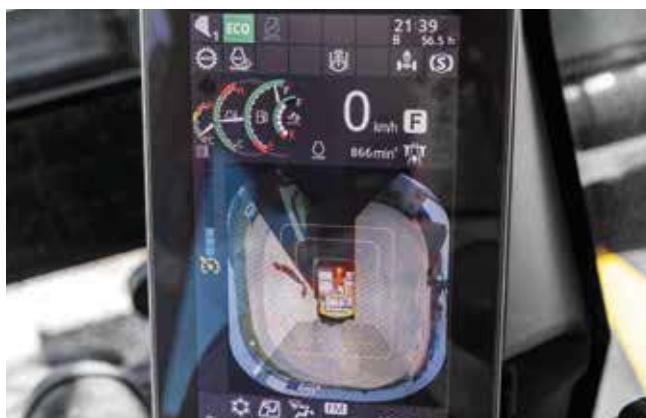

The lower first step makes entering the cab safer and easier.

Wider wiper design provides greater visibility.

Control your safety with the 270-degree view Aerial Angle camera system.

Choose between different image layouts to suit your working environment.

LED work lights improve visibility in challenging conditions.

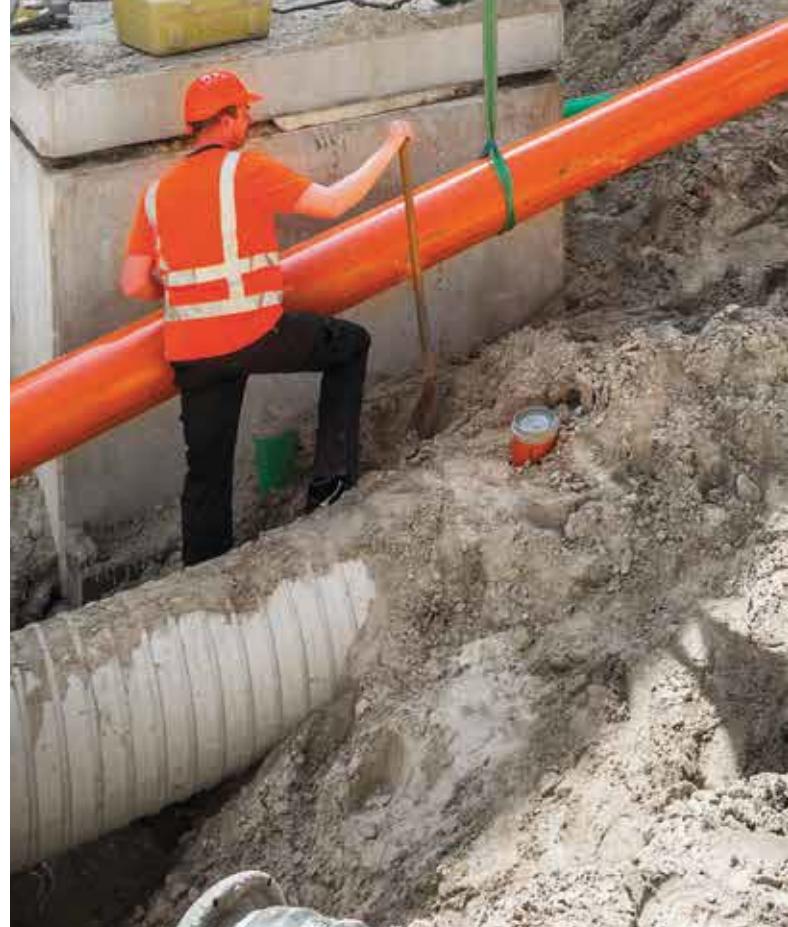

Optional auto-greasing system saves time.

Maintenance is easy at ground level.

Fenders on the undercarriage protect the upper structure and lights from dirt, keeping the machine clean.

Designed for durability and easy maintenance, Zaxis-7 excavators increase uptime and reduce the total cost of ownership.

In control of your assets

Boost your uptime

Completing a project on time and on budget depends on the ability of your construction equipment to perform all day, every day. That's why Hitachi owners have profited from generations of ultra-reliable and durable machinery – and the Zaxis-7 range is no exception.

The latest Hitachi wheeled excavators have been built to last, so that you can remain in complete control of your assets. They have been tested rigorously and continuously at dedicated facilities in Japan with the goal of significantly boosting your uptime.

As a result, a wide range of durable new components have been fitted to the latest Stage-V compliant machines – even down to the detail of the rigidity of the door hinges. The reliable new single-piece undercarriage benefits from greater oscillation of the axles, enhanced outrigger hydraulics, reduced risk of oil leakages, and several other improvements. Now standard on our Zaxis-7 range is a high-performance hydraulic filter to capture any dust in the hydraulic oil and help to reduce running costs.

Downtime is prevented by the durable after-treatment system, and also minimised by the priority given to easy maintenance and cleaning – saving you time and money. Peace of mind comes from such features as the two-way disconnect switch. This makes it possible to shut down power without resetting data on the monitor and prevents the battery from discharging during welding.

In control of your fleet

Manage your machine

Hitachi offers a wide range of after-sales services to help you feel in total control of your fleet and workload. These initiatives give you access to vital data and tools to manage your machine.

Remote monitoring systems Owner's Site and ConSite send operational data daily via GPRS or satellite from your excavator to www.globaleservice.com. This includes: ratios of operating hours to enhance efficiency; fuel consumption to manage running costs; and machine location for planning purposes. ConSite summarises the information in a monthly email.

The ConSite Pocket App sends you real-time alerts for issues arising with your machine. You'll receive recommendations on what to do and step-by-step help guides. The app also enables you to see the location of your fleet.

A unique innovation continuously monitors the quality of engine and hydraulic oil, 24/7. Data is transmitted daily via two oil sensors to Global e-Service. These detect if the oil quality has deteriorated, due to contamination or low viscosity. If this happens, you and your authorised Hitachi dealer will receive an alert.

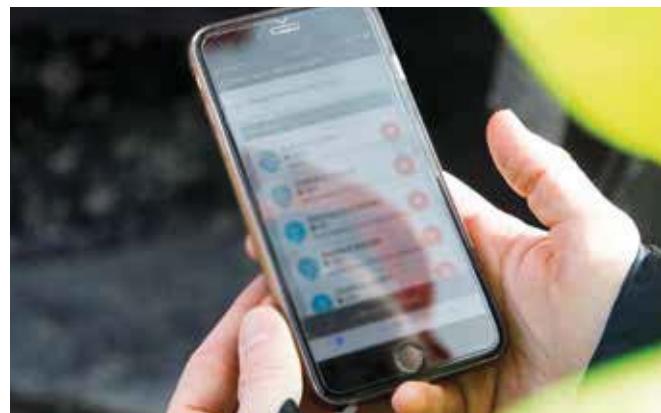

This innovative feature provides accurate estimations of when oil changes are required. It reduces maintenance and unscheduled downtime, and gives you peace of mind thanks to scheduled servicing and ultimately a higher resale value.

The unique oil sensor reduces maintenance and downtime.

A wide range of data on Global e-Service enhances efficiency.

The alerts on the ConSite Pocket App provide real-time information.

Hitachi offers a wide range of after-sales services for planning maintenance and managing running costs.

Minimise downtime with Hitachi Genuine Parts.

HELP extended warranties and service contracts provide optimal performance.

Hitachi Premium Rental enables you to pay as you earn.

Hitachi provides the highest level of technical support.

In control of your uptime

Protect your investment

If your machine will be working in severe conditions, or you want to minimise repair costs, you can take advantage of a unique extended warranty programme called HELP (Hitachi Extended Life Program) and comprehensive service contracts. These can help to optimise performance, reduce downtime and ensure a higher resale value.

We apply the same technological expertise to our wide range of high-quality parts as we do our machines. As a result, you can minimise unscheduled downtime and ensure maximum availability.

The parts range includes Hitachi Genuine Parts, Performance Parts, filters, undercarriages, and remanufactured components. We also offer ground engaging tools and buckets, which have been manufactured to the same exacting standards.

As your business grows, you may need to extend your fleet to meet the demands of new contracts. Why not try before you buy with the Hitachi Premium Rental programme? This gives you immediate access to Zaxis-7 excavators for a period of one month to a year.

Along with the reliability, quality and service you would expect from the Hitachi brand, Hitachi Premium Rental offers flexible contracts and fixed costs that make it easier for you to budget.

In control of your performance

GET more from your machine

Designed to work in perfect harmony with your machine, Hitachi's buckets and ground engaging tools (GET) will increase your profit by maximising productivity and uptime. Manufactured to the same high standards as all Hitachi construction equipment, they offer unrivalled reliability and exceptional performance.

Buckets

You can increase the versatility of your excavator by choosing the right bucket for the job. For loading light materials or heavy-duty work, Hitachi buckets can be customised to meet your needs. You have a wide range of options to choose from – including digging buckets and ditch-cleaning buckets in GD and HD versions, with different capacities and widths – and quick coupler connections such as CW, pin grabber and S-coupling are also available.

Ground engaging tools

You can enhance the digging power and productivity of your excavator with Hitachi GET. Quick and safe to install and replace, they fit precisely to your attachments and can be tailored to suit the task. Using Hitachi GET can reduce your maintenance costs and downtime, lower fuel consumption and enhance the overall performance of your machine.

Hitachi buckets and GET are manufactured to the same high standards as all Hitachi construction equipment.

Hitachi buckets can be customised to suit the application.

An optional trailer support package is available for added convenience and versatility.

Hitachi GET include self-sharpening teeth and reliable adapters to ensure a precise fit.

EH dump trucks and EX ultra-large excavators

Special application excavators

Create your vision

In control of your world

When you take delivery of a Hitachi machine, you become part of the latest generation of a global family. With a 50-year heritage in designing hydraulic excavators, and a reputation as the industry's leading mining machine manufacturer, the Hitachi network will give you access to a range of exceptional construction equipment.

Like the new Zaxis-7 excavators, Hitachi wheel loaders, rigid dump trucks, and special application machines incorporate advanced technology and pioneering expertise. This is inspired by parent company Hitachi Ltd, which was founded on the philosophy to make a positive contribution to society through technology.

In addition to the latest products made at state-of-the-art facilities and built to the highest quality standards, you'll have the support of our experienced engineers and dedicated dealer personnel. You'll also benefit from market-leading services and initiatives, such as Premium Rental and Premium Used, which have been created to enhance your experience as a Hitachi customer.

Whatever vision you wish to create, Hitachi has the product, people, solutions and services you need to make it become a reality – and empower you to take control of your world.

UPPERSTRUCTURE

Revolving Frame

D-section frame for resistance to deformation.

Swing Device

Axial piston motor with planetary reduction gear is bathed in oil. Swing circle is singlerow. Swing parking brake is spring-set/hydraulic-released disc type.

ZX135W-7

Swing speed 9.8 min⁻¹
Swing torque 30.6 kNm

ZX150W-7

Swing speed 11.9 min⁻¹
Swing torque 33 kNm

ZX155W-7

Swing speed 11.9 min⁻¹
Swing torque 33 kNm

UNDERCARRIAGE

Wheeled type undercarriage. The frame is of welded, stress-relieved structure.

Drive system: 2 speed power shift transmission and variable displacement axial piston type travel motor.

Travel Speed (forward and reverse)

Max. travel speed High : 35 km/h
Low : 8.8 km/h
Creeper : 2.2 km/h

Maximum traction force ... 102 kN

Gradeability 70% (35 degree) continuous

Min. turning radius 6 800 mm

Axle:

All-wheel drive.
The front axle can be locked hydraulically in any position.
Oscillating Front Axle ... ± 9°

Brakes system:

Maintenance free wet-disc brakes on axle are standard.
Fully hydraulic service brake system

Transportation dimensions are A, B, and the largest value of either F, H, R or S.

MACHINE CAPACITIES

ZX135W-7

- Notes:
1. Ratings are based on ISO 10567 : 2007.
 2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
 3. The load point is the center-line of the bucket pivot mounting pin on the arm.
 4. *Indicates load limited by hydraulic capacity.
 5. Each value with Rear blade up over the Front-axle side and each value with Rear blade down over the Rear-axle side respectively, and value in optimal position with positioning cylinder.
 6. 0 m = Ground.

A: Load radius
B: Load point height
C: Machine capacity

For machine capacities, subtract installed attachment and quick hitch weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick hitch. Optional feature may affect machine performance.

MACHINE CAPACITIES

ZX150W-7

- Notes:
1. Ratings are based on ISO 10567 : 2007.
 2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
 3. The load point is the center-line of the bucket pivot mounting pin on the arm.
 4. *Indicates load limited by hydraulic capacity.
 5. Each value with Rear blade up over the Front-axle side and each value with Rear blade down over the Rear-axle side respectively, and value in optimal position with positioning cylinder.
 6. 0 m = Ground.

A: Load radius
B: Load point height
C: Machine capacity

For machine capacities, subtract installed attachment and quick hitch weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick hitch. Optional feature may affect machine performance.

MACHINE CAPACITIES

ZX150W-7

Notes: 1. Ratings are based on ISO 10567 : 2007.

2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
3. The load point is the center-line of the bucket pivot mounting pin on the arm.
4. *Indicates load limited by hydraulic capacity.
5. Each value with Rear blade up over the Front-axle side and each value with Rear blade down over the Rear-axle side respectively, and value in optimal position with positioning cylinder.
6. 0 m = Ground.

For machine capacities, subtract installed attachment and quick hitch weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick hitch. Optional feature may affect machine performance.

A: Load radius

B: Load point height

C: Machine capacity

MACHINE CAPACITIES

ZX150W-7

- Notes:
1. Ratings are based on ISO 10567 : 2007.
 2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
 3. The load point is the center-line of the bucket pivot mounting pin on the arm.
 4. *Indicates load limited by hydraulic capacity.
 5. Each value with Rear blade up over the Front-axle side and each value with Rear blade down over the Rear-axle side respectively, and value in optimal position with positioning cylinder.
 6. 0 m = Ground.

For machine capacities, subtract installed attachment and quick hitch weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick hitch. Optional feature may affect machine performance.

MACHINE CAPACITIES

ZX150W-7

- Notes:
1. Ratings are based on ISO 10567 : 2007.
 2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
 3. The load point is the center-line of the bucket pivot mounting pin on the arm.
 4. *Indicates load limited by hydraulic capacity.
 5. Each value with Rear blade up over the Front-axle side and each value with Rear blade down over the Rear-axle side respectively, and value in optimal position with positioning cylinder.
 6. 0 m = Ground.

For machine capacities, subtract installed attachment and quick hitch weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick hitch. Optional feature may affect machine performance.

MACHINE CAPACITIES

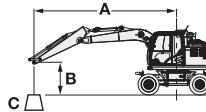

ZX150W-7

- Notes:
1. Ratings are based on ISO 10567 : 2007.
 2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
 3. The load point is the center-line of the bucket pivot mounting pin on the arm.
 4. *Indicates load limited by hydraulic capacity.
 5. Each value with Rear blade up over the Front-axle side and each value with Rear blade down over the Rear-axle side respectively, and value in optimal position with positioning cylinder.
 6. 0 m = Ground.

For machine capacities, subtract installed attachment and quick hitch weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick hitch. Optional feature may affect machine performance.

A: Load radius
B: Load point height
C: Machine capacity

MACHINE CAPACITIES

ZX155W-7

- Notes:
1. Ratings are based on ISO 10567 : 2007.
 2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
 3. The load point is the center-line of the bucket pivot mounting pin on the arm.
 4. *Indicates load limited by hydraulic capacity.
 5. Each value with Rear blade up over the Front-axle side and each value with Rear blade down over the Rear-axle side respectively, and value in optimal position with positioning cylinder.
 6. 0 m = Ground.

A: Load radius
B: Load point height
C: Machine capacity

For machine capacities, subtract installed attachment and quick hitch weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick hitch. Optional feature may affect machine performance.

EQUIPMENT

ENGINE	ZX135W-7	ZX150W-7	ZX155W-7
Aftertreatment device	●	●	●
Air cleaner double filters	●	●	●
Alternator 100 A	●	●	●
Auto idle system	●	●	●
Auto shut-down control	●	●	●
Cartridge-type engine oil filter	●	●	●
Cartridge-type fuel main filter	●	●	●
Consite OIL (sensor)*	●	●	●
Coolant heater	○	○	○
DEF/AdBlue® tank	●	●	●
DEF/AdBlue® tank inlet strainer and extension filler	●	●	●
Dry-type air filter with evacuator valve (with air filter restriction indicator)	●	●	●
Dust-proof indoor net	●	●	●
ECO/PWR mode control	●	●	●
Engine oil drain coupler	●	●	●
Expansion tank	●	●	●
Fan guard	●	●	●
Fuel heater	○	○	○
Fuel pre-filter with water separator	●	●	●
Isolation-mounted engine	●	●	●
Maintenance free pre-cleaner	○	○	○
Radiator, oil cooler and intercooler	●	●	●

HYDRAULIC SYSTEM			
Auto power lift	●	●	●
ConSite OIL (sensor)*	●	●	●
Control valve with main relief valve	●	●	●
Extra port for control valve	●	●	●
High mesh full-flow filter	●	●	●
Hose rupture valve for arm	●	●	●
Hose rupture valve for boom	●	●	●
Pilot filter	●	●	●
Power boost	●	●	●
Restriction indicator for full-flow filter	○	○	○
Shockless valve in pilot circuit	●	●	●
Steering filter	●	●	●
Suction filter	●	●	●
Swing dampener valve	●	●	●
Variable reliefvalve for breaker and crusher	●	●	●
Work mode selector	●	●	●

CAB	ZX135W-7	ZX150W-7	ZX155W-7
All-weather sound suppressed steel cab	●	●	●
Auto control air conditioner	●	●	●
AUX function lever (breaker assist)	●	●	●
Bluetooth®* integrated DAB+radio	●	●	●
Console height adjustment	●	●	●
Control lever auto-lock	●	●	●
CRES VII (center pillar reinforced structure) cab	●	●	●
Drink holder with hot and cool function	●	●	●
Electric double horn	●	●	●
Engine shut-off switch	●	●	●
Equipped with reinforced, tinted (green color) glass windows	●	●	●
Evacuation hammer	●	●	●
Floor mat	●	●	●
Footrest	●	●	●
Front window washer	●	●	●
Glove compartment	●	●	●
Hands-free calling device	●	●	●
Hot and cool box	●	●	●
Intermittent windshield wipers	●	●	●
Key cylinder light	●	●	●
Laminated round glass window	○	○	○
LED room light	●	●	●
OPG top guard Level I (ISO 10262 : 1998) compliant	●	●	●
OPG top guard Level II (ISO 10262 : 1998) compliant	○	○	○
Pilot shut-off lever	●	●	●
Power outlet 12 V and 24 V	●	●	●
Push button low idle	●	●	●
Rain guard (without OPG front guard)	●	●	●
Rear tray	●	●	●
Retractable seat belt	●	●	●
ROPS (ISO 12117-2 : 2008) compliant cab	●	●	●
Rubber radio antenna	●	●	●
Seat : air suspension seat with heater	●	●	●
Seat adjustment part : backrest, armrest, height and angle, slide forward / back	●	●	●
Seat belt reminder	●	●	●
Short wrist control levers	●	●	●
Smartphone holder	●	●	●
Sun visor (multi-use front or side window)	●	●	●
Sunscreen roller type (multi-use front or side and rear window)	○	○	○
Transparent roof with slide curtain	●	●	●
5V USB power supply	●	●	●
Wide view wiper	●	●	●
Windows on front, upper, lower and left side can be opened	●	●	●
2 speakers	●	●	●
4 fluid-filled elastic mounts	●	●	●
8 inch monitor	●	●	●

Standard and optional equipment may vary by country, so please consult your Hitachi dealer for details.

* Engine oil and hydraulic oil monitoring sensor.

**The system detects the pilot pressure and maintains the set speed by maintaining the pilot pressure.

● : Standard equipment ○ : Optional equipment — : Not applicable

MONITOR SYSTEM	ZX135W-7	ZX150W-7	ZX155W-7
Alarm buzzers: overheat, engine oil pressure, overload, SCR system trouble	●	●	●
Alarms: overheat, engine warning, engine oil pressure, alternator, minimum fuel level, hydraulic filter restriction, air filter restriction, work mode, overload, SCR system trouble, etc	●	●	●
Attachment operational information	●	●	●
Display of meters: Speedometer, Tachometer, Tripmeter, water temperature, hour, fuel rate, clock, DEF/AdBlue® rate	●	●	●
Other displays: work mode, auto-idle, glow, rearview monitor, operating conditions, etc	●	●	●
35 languages selection	●	●	●

LIGHTS			
Additional boom LED light with cover	○	○	○
Additional cab roof front LED lights	○	○	○
Additional cab roof rear LED light	○	○	○
Brake lamps	●	●	●
Clearance lamps	●	●	●
Hazard lamps	●	●	●
Headlight LED	●	●	●
LED lights for camera (side and rear view camera)	○	○	○
Licence lamp	○	○	○
Rotating lamp (cab)	○	○	○
Rotating lamp (counterweight)	○	○	○
Turn signal lamps	●	●	●
Working LED lights	●	●	●
Working LED Lights under arm	○	○	○

UPPERSTRUCTURE			
AERIAL ANGLE® (270-degree view camera system)	●	●	●
Batteries 2 x 74 Ah	●	—	—
Batteries 2 x 93 Ah	—	●	●
Battery disconnect switch	●	●	●
Body top guardrail	●	●	●
Cab top handhold	●	●	●
Counterweight 2 150 kg	●	—	—
Counterweight 2 800 kg	—	●	—
Counterweight 3 100 kg	—	○	—
Counterweight 3 200 kg	—	—	●
Electric fuel refilling pump with auto stop and filter	●	●	●
Fuel level float	●	●	●
Hydraulic oil level gauge	●	●	●
Lockable fuel refilling cap	●	●	●
Lockable machine covers	●	●	●
Platform handrail	●	●	●
Rear view mirror (right and left side)	●	●	●
Rear view mirrors with heater (right and left side)	○	○	○
Skid-resistant plates and handrails	●	●	●
Swing parking brake	●	●	●
Undercover	●	●	●

UNDERCARRIAGE	ZX135W-7	ZX150W-7	ZX155W-7
Automatic transmission control	●	●	●
Automatic working brake control	●	●	●
Clamshell bracket	○	○	○
Cruise control**	●	●	●
Electric system for trailer	○	○	○
Front cover	●	●	●
Front dozer blade + rear outrigger	○	○	○
Front fender / rear fender	○	○	○
Front outrigger + rear dozer blade	○	○	○
Front outrigger + rear outrigger	○	○	○
Parking brake	●	●	●
Rear dozer blade	○	○	○
Rear dozer blade, reinforced for trailer towing	○	○	○
Rear outrigger, prepared for trailer towing	○	○	○
Tool box: left side	●	●	●
Tool box: right side	○	○	○
Traction pattern tyres, single or twin type	●	●	●
4 tie down brackets	●	●	●

FRONT ATTACHMENTS			
Arm tip remote lubrication	●	●	●
Auto-lubrication device (swing gear, boom, arm and bucket)	○	○	○
Casted bucket link A	●	●	●
Centralized lubrication system	●	●	●
Dirt seal on all bucket pins	●	●	●
Flanged pin	●	●	●
HN bushing	●	●	●
Lower arm reinforcement	○	○	○
Reinforced link B	○	○	○
Reinforced resin thrust plate	●	●	●
WC (tungsten-carbide) thermal spraying	●	●	●
Welded bucket link A	○	○	○

ATTACHMENT			
Accessories for 2 speed selector	○	○	○
Additional pump (40 L/min)	○	○	○
Assist piping	○	○	○
Breaker and crusher piping	●	●	●
Clamshell piping	○	○	○
Pilot accumulator	●	●	●
PTO valve	○	○	○

MISCELLANEOUS			
ConSite	○	○	○
Global e-Service	●	●	●
Onboard information controller	●	●	●
Standard tool kit	●	●	●
Travel direction mark on chassis frame	●	●	●

Prior to operating this machine, including satellite communication system, in a country other than a country of its intended use, it may be necessary to make modifications to it so that it complies with the local regulatory standards (including safety standards) and legal requirements of that particular country. Please do not export or operate this machine outside the country of its intended use until such compliance has been confirmed. Please contact your Hitachi dealer in case of questions about compliance.

These specifications are subject to change without notice.
Illustrations and photos show the standard models, and may or may not include optional equipment, accessories, and all standard equipment with some differences in color and features. Before use, read and understand the Operator's Manual for proper operation.
