ENGLISH

EFFER
RAISE THE VALUE

MORE CONNECTED, MORE EFFICIENT

From now on, the monitoring and planning of your work in every moment will be even easier, also for Effer cranes fleets.

And in case of need, the remote support is immediate.

TECHNOLOGY AT YOUR SERVICE FOR MORE PRODUCTIVITY AND IMMEDIATE ASSISTANCE

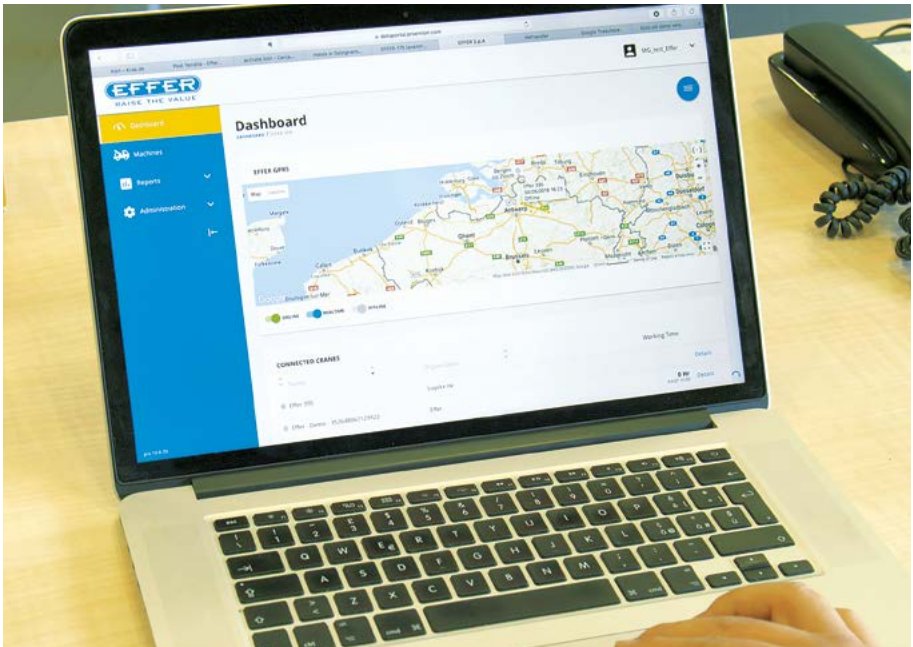

RACE is the **new connectivity system for Effer cranes**, developed thanks to **Progress 2.0** electronics, that allows you to always stay connected to your crane and to consult its data.

With RACE you can manage and plan your work quickly and easily, **thus increasing productivity**. And your Effer Point service can intervene immediately in case of need.

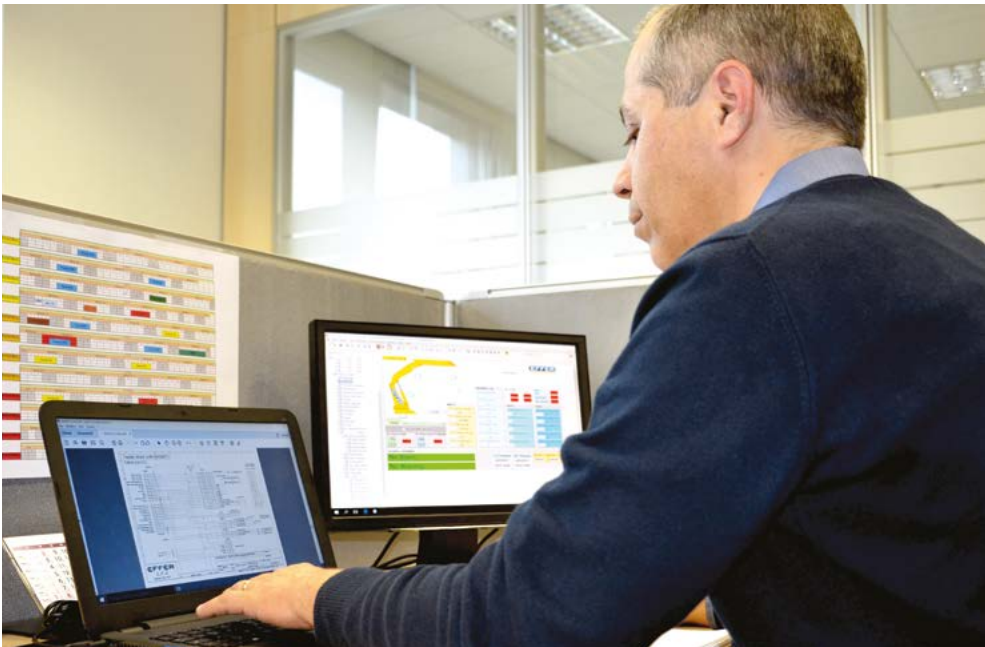

WHEREVER YOU ARE, ALL THE DATA IN YOUR POCKET

RACE allows you to **monitor the state of your crane from any stationary or mobile device**, such as smartphone, tablet and PC.

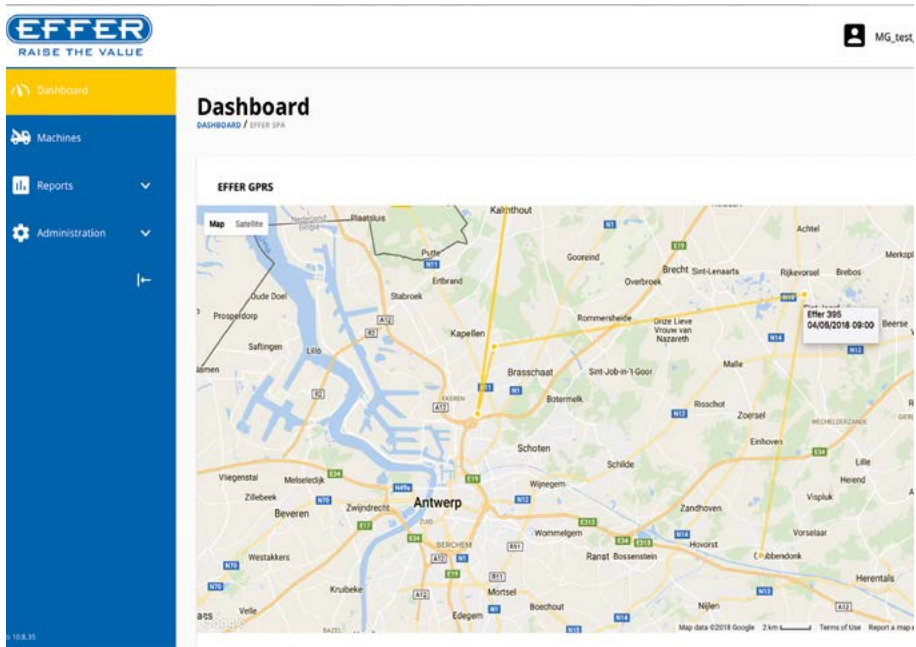

EASY ACCESS

With RACE, the connection to your Effer crane is very easy **just by accessing the dedicated portal** with no need to download any software or app.

IMMEDIATE SUPPORT

Whenever you need support, wherever you are, **your Effer Service Point** can connect directly to your crane via remote access and **quickly intervene** to fix any errors. An important saving of time and money.

REAL-TIME TRACKING

Thanks to RACE, **the client can view the truck journey** in every moment from his control panel.

MONITOR THE HOURS OF WORK

RACE allows you to keep track of the **effective working time** and measures the **percentage of use with attachments** such as fly-jib, bucket and basket.

MANAGE YOUR FLEET

It is possible to see the performance of different units and **consult detailed reports on their activity** thus optimizing their use.

PLAN MAINTENANCE INTERVENTIONS

From RACE control panel you are able to **know** how much time is left before the next maintenance intervention of any operative unit, and **plan in advance the activities** together with your Effer Service Point.
